PALERANG COUNCIL PRICING POLICY

Section 404 of the Local Government Act requires Council to include in its Management Plan, a Statement of the Council's Pricing Policy with respect to the goods and services provided by it.

The Schedule of Fees and Charges is reviewed on an annual basis as part of the Management Plan process with the view of optimising the revenue base whilst at the same time attempting to ensure that the level of our fees and charges are fair and equitable for stakeholders using our services.

When setting its level of fees and charges, consideration is given to the nature of the service and any community service obligation as well as wider policy objectives such as equity and social justice considerations.

The purpose of a Pricing Policy is to explain the rationale behind each fee and charge set out in the Schedule of Fees and Charges.

The Pricing Policy is made up of a number of Pricing Principles and the Pricing Basis used for setting the level of the fee or charge.

PRICING PRINCIPLE

All goods and services provided should have an identified Pricing Principle which is a simple statement that clarifies the philosophy of the goods and services and the reasoning for the level of charges set.

PRICING BASIS

This is the method by which the fee or charge is determined and it sets the level of cost recovery. The basis used depends on the Pricing Principle chosen.

Council's Pricing Policy provides transparency so that stakeholders can clearly understand the basis of the Fees and Charges set.

The Pricing Principle and Pricing Basis are disclosed in respect of each fee and charge listed in the Schedule of Fees and Charges.

The following is a list of Pricing Principles and Pricing Basis.
